

### **Project Architect:**

Murphy Burnham & Buttrick is seeking a creative architect to join our vibrant design practice based in New York City. Our award-winning practice centers on a collaborative studio environment prioritizing innovative and sustainable design. We have a diverse body of work including institutional, cultural, residential and educational projects across a range of scales and are committed to creating architecture that elevates the human experience. We have both breadth and depth of expertise in master planning, interior design, preservation, sustainable design and architectural design and emphasize a team structure that facilitates continued education and professional advancement.

We are looking for an architect with an advanced degree in architecture, exceptional design skills and a minimum of ten years postgraduate experience. We value team members with strong verbal and graphic communication skills, the enthusiasm and ideas to contribute to design dialogue, and the determination to continue to interrogate and improve on design. Our collaborative environment relies on designers who work well with a team. Applicants must also be currently authorized to work in the United States on a full-time basis. Please indicate on your cover letter details relating to your work authorization status.

Please email a letter of interest, your resume and a pdf of work samples (maximum of ten pages) to Maricela Salas at [msalas@mbbarch.com](mailto:msalas@mbbarch.com). Please include your name in the subject line and samples that highlight your design abilities including academic and professional work. Salary will be commensurate with experience. We also offer opportunities for advancement and a range of benefits.

### **Designer:**

Murphy Burnham & Buttrick is seeking creative designers to join our vibrant design practice based in New York City. Our award-winning practice centers on a collaborative studio environment prioritizing innovative and sustainable design. We have a diverse body of work including institutional, cultural, residential and educational projects across a range of scales and are committed to creating architecture that elevates the human experience. The studio is structured to provide the rigor and technical expertise of a large firm with the personal approach and collaborative environment of a small firm. We have both breadth and depth of expertise in master planning, interior design, preservation, sustainable design and architectural design and emphasize a team structure that facilitates continued education and professional advancement.

We are looking for designers with an advanced degree in architecture, exceptional design and rendering skills and three to five years of experience. We value team members with strong verbal and graphic communication skills with the enthusiasm and ideas to contribute to design dialogue and the determination to continue to interrogate and improve on design. Our collaborative environment relies on designers who work well with a team. REVIT/BIM experience a plus. Applicants must also be currently authorized to work in the United States on a full-time basis. Please indicate on your cover letter details relating to your work authorization status.
